

SENIOR INSTRUCTOR

## THOMAS DOLCE

Tom Dolce is a Chemical Engineer, a Certified Environmental Trainer and a Registered Professional Engineer.

Tom has over 30 years of experience completing environmental engineering and regulatory compliance projects, and conducting environmental, DOT, IATA and IMDG Code training.

Tom's expertise includes regulatory analysis, compliance program implementation and oversight and multi-media auditing; chemical and environmental engineering; environmental and health and safety training; air emission assessments, inventories, regulatory analysis and permitting; wastewater treatment system design, permitting and troubleshooting; pollution prevention, manufacturing and compliance integration, engineering and implementation

EPA's accidental release program implementation; EPCRA compliance and reporting; EHS Management system and personnel development; hazardous waste and USDOT hazardous materials shipping regulations; site investigation, due diligence and cleanup; environmental litigation support.

Tom has extensive knowledge of the State, United States Environmental Protection Agency (EPA), International Air Transport Association (IATA) Dangerous Goods Regulations (DGR), International Maritime Dangerous Goods (IMDG) Code and the United States Department of Transportation (DOT) regulations. He stays informed by continually tracking regulatory changes, conducting numerous training courses on the regulations and by providing regulatory compliance services to industry.

Tom can be reached at [tom.dolce@hrpassociates.com](mailto:tom.dolce@hrpassociates.com).
