

SENIOR CONSULTANT

ALLISON TYROPOLIS

Allison Tyropolis serves as a Senior Consultant in HRP Associates, Inc.'s Farmington, Connecticut office. Allison has thirteen years of experience in air permitting and compliance. Before coming to HRP, Allison worked as a permit engineer at the Connecticut Department of Energy and Environmental Protection (CT DEEP) and was involved in permitting and performing air emissions modeling for various industries, including but not limited to electrical generation, manufacturing, printing and coating, incineration, and mineral processing.

Allison's diverse project experience spans federal, state, and local environmental regulations associated with the Clean Air Act (CAA). Projects of note include permit applicability determinations, Title V and IV air permitting, New Source Review Permitting, and synthetic minor source permitting, as well as Refined

and screening modeling using EPA's AERMOD application suite. Allison also has experience preparing and submitting emissions reports for annual source compliance reporting as well as responding to enforcement actions and creating corrective action plans. In addition, Allison has experience navigating CT DEEP's informational and adjudicatory hearing processes and has served as an expert witness during legal proceedings with regards to air permitting.

Technical duties include performing air emissions calculations for the purposes of permitting applicability and compliance, air emissions reporting, air permitting application preparation for the purposes of submitting to environmental agencies, and various other air emissions consulting needs. To complete these duties, Allison uses her technical knowledge to determine if sources are in compliance with state, federal, and local regulatory requirements and ensure a smooth permitting process.

Allison's knowledge of air compliance and permitting has resulted in desired outcomes for our clients. Allison maintains a productive and professional relationship with various regulatory agencies throughout the northeast and across the country. Her project success stems from a strong communication link between her clientele, her project team members, and regulatory agencies.

Ms. Tyropolis earned her Bachelor's Degree in Environmental Engineering from the University of Connecticut. Allison can be reached at 800-246-9021 or at allison.tyropolis@hrpassociates.com.
